

Valentine

Michael McFarland

Love like a greeting card, so pretty and unnecessary
penned by defeated hearts run out of words to say
and I know this beat-up car dont look like shell last for very long
but its got a driver that will take it all the waycause this car dont stop when the gas runs out
this car dont stop when the wheels come off
this car dont stop when the engine quits
cause its a million miles a minute my lovebaby, dont you go, dont you say Im not the man you used to know
dont you say goodbye, Ill see you around
maybe you will find that if you walk out Ill follow close behind
dont you know Im yours, I gave you my heart like a valentinehow many people say a love like ours is legendary
how many people said youre beautiful today
but you dont believe in love or how it feels so hard to carry on
but I believe in us, I think you ought to stay
