

Shadow State

Down Royale

Invade, colonize, infect and destroy identity
Deny repent and unify the minority
In this possession, abandon and existence smothered by ignorance
Stripped of all autonomy, invalid reasoning
Extract all life and restructure
Destroying sacred ties
A nation built on lies and genocide
Fueled by corporate greed
An inhumane authority
Erase, replicate and deny
Defy your own intelligence
Masterful negligence
Diplomatic saviour?
Exiled and forced to the shadows
Eradicate and wipe the slate
No tolerance of difference
Annihilation
Assimilate and put your faith into a system that takes
That breaks everything you are
Dispossession - a process of catastrophic regress
An entity of concentrated self-indulgent dominance
Decolonize
Self-determinate
Abort this social contortion and re-invent
Skeptics conceptualize a shadow state
Invade
Mislead the blind to infect
No room for good will
In this shadow state
Assimilate and put your faith into a system that takes
That breaks everything you are
Eradicate, connectedness, white nothingness
Forget who you are
Abandon reason, Unify
