

# Libby, I'm Listening

## Blue October

Innertube sunset  
With a kiss and a cigarette  
You're better than any midnight sex  
I can't stop cause it feels too good  
I won't stop but I know I should  
Believe me I'm not always on a serious side.[Chorus]  
Cause I can make you laugh, if he makes you scream  
If he breaks you, tell me everything  
Cause here we are alone again  
Libby I'm listening  
Cause I can make you laugh, if he makes you scream  
If he breaks you, tell me everything  
Cause here we are alone again  
Libby I'm listening It's hard to fill the empty space  
When they're your prayers  
Your love, your fucking grace  
Closed eyed sleeping face to face  
Sweet girl with such a tender taste [Repeat Chorus] Libby, I just want to, listen to you...please! [Repeat  
Chorus] Libby I'm...Libby I'm listening to you.  
Libby Un...Libby unwind.  
Libby I'm...Libby I'm listening to you.  
Libby Un...Libby Unwind.
