

Surviving

NamNamBulu

I'll stand at your shoulder
I'll keep you running right
 Keep you running right
I'll fight in your corner
 I'll stay by your side
 I'll stay by your side
There's no need now to worry
Our love's still here tomorrow
 There ain't no use in crying
 For what's keeping us divided
Baby, we're still trying, we're still trying
 We're too old to worry
 About who's wrong and who is right
 Is all so by and by
 People need a villain
 Someone to pay the price
 It keeps them satisfied
There's no need now to worry
 I'll still be here tomorrow
 There ain't no use in crying
 For what's keeping us divided
Baby, we're still trying, we're still trying
 Baby, we're still trying
 Baby, we're surviving
