

Private Radio

Vanessa Carlton

Ohh ohh ohh
Ohh ohh ohh
Gotta get a little
Gotta get a little All the world has gone to bed
And I am drowning in it's silence
But a solitude is in my head
From you, maybe
And if the silence was a song
Well, it's rhythm grooves and it's a private radio
And on this night I did belong
In harmony
And you can't deny me
And you will oblige me
It's my melody When the night comes
When no one knows
I can feel it
I've got my private radio I'm finally out of my pillow
'Cause I'm lyin' here but I am ready, good to go
If I don't win, I'll leave this town
Or not, I'll stay and chase the sun
Now you can't deny me
And you will oblige me
It's my melody When the night comes
When no one knows
I can feel it
I've got my private radio Catch me
Not care
Call me later
Morning's risin' All the world has gone to bed
And there's a sound inside my head
And in the dark inside my bed
And the melody, it's in my head There's a part of me, no one will never know
And midnight comes and I know I'm on my own
There's a part of me, no one will ever see
There's a part of me, no one will ever be My private radio
My private radio
My private radio
