

I Want You to Keep Everything

These United States

Over. Baby, we're over that river. Our love was a river.
Let your loneliness sing. I want you. I want you to keep everything. Shaken. You've left me shaken. Our love,
we said was the mountain.

Our love, the river, we said was a mountain. I want you to keep everything. The path's the destination - that
moment at the fork. Don't look back, or too hard at the point you're moving towards. That can only vanish as
the path propels you on. Blink for just that moment and the point is gone. Over. Baby, we're over. Don't you
send me my red shirt; sew that onto your thin wings.
I want you to keep everything.
