Parked Cars

Stephen Bishop

Every time she looks my way
Heaven gets a little closer
Every time I feel that way
I wanna be with herLove is surely like a rose
'Til you find a thorn to hurt you
One thing she'll always know
My love is trueParked cars
Sittin' in the back seat
Drivin' down on Main Street
Stayin' out all nightParked cars
Holding her so close
Wondering if she knows
Why I love her soWhen love is knockin' at your door
And the world is there up on your shoulder
I'll show her then what love is for
Tonight when I'm with herParked cars
Turnin' off the headlights
Somewhere in the dark night
Talkin' to the moonParked cars
Holding her so close
With the radio down low
Playin' 'Love me do'When love is a lie
She says goodbye
Finds someone new
Now your world is blueParked cars
Sittin' in the back seat
Drivin' down on Main Street
Stayin' out all nightParked cars
Holding her so close
Wondering if she knowsThat every time she looks my way
Every time she smiles my heart breaks
And all I really want to say
Is that my love is true
Yes all I really want to say
Is that my love is trueMy love is true
Yeah yeah yeah
My love is true
My love is true
My love is true
