

So Fly (Feat. Alandon)

[Chris Webby](#)

Im so fly that its dangerous
Rocking the ear flaps with a handkerchief
Always stay around trees like Im ranger rick
Load up the cloud pen then I take a rip
Your girls favorite
Like Yankovic
Im weird as well
Your opinion doesn't affect me you can clearly tell
Living life to the fullest well im here
And when the ends near
I just hope they serve beer in hell
But eh I ain't worried about the fire in brimstone
Cause that's a fair trade for the life that I live homes
Feet up on the street just like Im riding with Flintstones
Gotta stay grounded when you fly as I been yo
So much drink I need a extra thermos
So cold I better get a furnace
Tattoos cover up my epidermis
Ima grind until I get it perfect bitch!
