Three More Days

Ray Lamontagne

Three more days
Girl, you know I will be coming home to you, darling
Three more days
Girl, you know I will be coming home to you, darling
I'll always want to be so far from home
I'll always want to leave you so alone
I've just got to get you this good job done
So I can bring it on home to you
So I can bring it on home to you
Three more days
Girl, you know I will be right there by your side, baby
Three more days
Girl, you know I will be right there by your side, baby
I'll always want to leave your soul alone
I'll always want to be so far from home

I've just got to get you this good job done
So I can bring it on home to you
So I can bring it on home to you
Gonna bring it on home to you
Home to you, home to you
Bring it on home to you
Home to you, home to you
Gonna give it so you can't stay alone
Gonna give it so you can't stay alone
Gonna give it so you can't stay alone
Give it to you, give it to you, give it to you
Gonna give it so you can't stay alone
Gonna give it so you can't stay alone
Gonna give it so you can't stay alone
