Killing Art

Hypocrisy

Take the gun, put it to your head
Pull the trigger, now you're dead
Slave race abandoned
Another crucifixion [Incomprehensible] from beginningLike a motherfuckin' massacre
Take your ball sack and pull it
Like a bone tap crushing through your scalp
Fall into submission heavilyGod can't help you now
Jesus died upon the cross
Damnation
Your turn nextThis is warStart assault with people
Pissing on your crucifix
They will come for you
Pain is growing through youWarrior against mice
Break 'em down to burn
We cannot compete
Spoils of warGrowing wave of the crime
The killing art, break your pride
Feel no pain all we need
It's a lesson learned from the worldLike a motherfuckin' massacre
Break your bones like a bullet
Break the bone into [Incomprehensible]
Fall into submission heavilyGod can't help you now
Jesus died upon the cross
Damnation
