

# Ravenous Hordes

[Krisiun](#)

Ravenous hordes ride the sorrowful dawn  
Purge through pillage inferno unleashed  
Blasting steel barbarian spawn  
Riding to avenge out of the hills  
Storms of spears breaks the dusk  
Ravens on high flesh and steel are one Rivers infested blood-bathed soil  
Sanguinary winds cruelty blown  
Decapitated pieces of foes  
Heads stacked slaughtered as burnt  
Daughters of men ravaged as enslaved  
Promised land crumbled to dust Bestial covenant of sword and oppressor  
Vanquished empire falls into ruins  
Enraged servants or tyrant realm  
Genocide of all lands
