

My Sentimental Friend

Herman's Hermits

On the floor the people dance around
Moving close together
But there all alone in the corner
There's the girl I once knew
Who broke me in two

So won't you please play a song
A sentimental song
For my sentimental friend over there
We've been so long apart
Make it go right to the heart
Of my sentimental friend over there
Bring the tears to her eyes
Help to make her realize
The love we had was just beyond compare
When if the time is right
Maybe I'll hold her tight
My sentimental friend over there

I recall the way she used to feel
When we heard the sad song
The teardrops would fall and she'd hold me
And tell me she'd be forever with me

So won't you please play a song
A sentimental song
For my sentimental friend over there
We've been so long apart
Make it go right to the heart
Of my sentimental friend over there
Bring the tears to her eyes
Help to make her realize
The love we had was just beyond compare
When if the time is right
Maybe I'll hold her tight
My sentimental friend over there

Oh won't you please play a song
A sentimental song
For my sentimental friend over there

We've been so long apart
Make it go right to the heart
Of my sentimental friend over there
Bring the tears to her eyes
Help to make her realize
The love we had was just beyond compare
When if the time is right
Maybe I'll hold her tight
My sentimental friend over there
