Star

Semisonic

I wandered in the moonlight, a ghost without a friend
All around the starlight found are lost and wounded men
I know that I did some damage, I wanted to be home again
So I waited for a star my soul to mend
I waited for a star my soul to mend
She came a long way to love me and I'm tasting her spark
She came a long way to kiss me, now my lips are wet
I know that I don't deserve it but I want to hear her sigh
And I want to stay here forever in her light
I want to stay forever in her light
Star, you're a beautiful sight
Bring me your lovely light
I'll be a satellite, satellite
Star, you're a beautiful sight
Bring me your lovely light
I'll be a satellite, satellite
And there's a dark crater space in Heaven and I might want to shine
And there's a bright little place in my head and darkness blows my mind
I could lie on my back and wonder why I've been treated so fine
And make love to her while we have tonight
I'll make love to her while we have tonight
Star, you're a beautiful sight
Bring me your lovely light
I'll be a satellite, satellite
Star, you're a beautiful sight
Bring me your lovely light
I'll be a satellite, satellite
I'll be a satellite, satellite
I'll be a satellite, satellite
