

I Still Need You Here

Joe Nester

You were all alone when they laid you to rest
But even though your gone I still feel you gently breathing on my neck

Ohh oo

Lord only knows you tried your best
Right before you left
you gave me the best part of yourself and it's still beating in my chest

Cause I was broken, I was hopeless
But you still loved me when I was homeless
So come and wash away these tears

Ohh oo

But heaven's callin' I'm still fallin'
Why did he take you away from me
I guess he didn't know that I still needed you here

Never got to say goodbye

So Momma Here it is

I hope that all is well and you know that I'm alright

ohh oo

I know your sending me these signs
I see them all the time
as you fly by I dry my eyes
There goes my angel in the sky
Cause I was broken, I was hopeless
But you still loved me when I was homeless

No way to wash away these tears

Ohh oo

Cause heaven's callin' I'm still fallin'
Why did he take you away from me

I guess he didn't know

That I still needed you here

Heaven knows I need you so

Just one more time before you go,

one more time to hold you close

To thank you for this heart of gold

One more time to kiss your cheek

before they lay you down to sleep

One more time before you leave

to hear your little baby say

before you go and spread your wings

Thank you mom for everything
