

# Thin Air

Keane

I can't keep up, you're  
moving too fast,  
Deep holes and darkness,  
these things will pass. Dark times and strange places where... When I came to see you  
you had nothing to say,  
I stood right beside you,  
you turned the other way,  
I reached out to hold you  
and found nobody there,  
You turn into air. Trust me, I want you  
just as you are,  
Don't change the things you do,  
just stay as you are. Dark times and strange places where... When I came to see you  
you had nothing to say,  
I stood right beside you,  
you turned the other way,  
I reached out to hold you  
and found nobody there,  
You turn into air. (Instrumental break) Dark times and strange places where... When I came to see you  
you had nothing to say,  
I stood right beside you,  
you turned the other way,  
I reached out to hold you  
and found nobody there,  
You turn into air.
