All the Rules Have Changed

Tub Ring

We're not trying
We're not even trying anymore
We're not trying
We're not even trying anymoreThat things have changed
The more you'll all the same
The more that things have changed
The more you'll all the same
More you're all the sameWe're not trying
We're not even trying anymore
We're not trying
We're not even trying anymoreFirst they'll question every claim
Though everything's in vain
Cause all the rules have changed
Now, genetic code explain
Intensify our fame
Cause all the rules have changed
All the rules have changed
All the rules have changed
All the rules have changed
All the rules have changed
