So Alive

Neon Jungle

Ana Tawa Soraeo sukiBetter we do it better, we do it better
And you know that's why you like it, like itBetter we do it better, we do it better
And you know that's why you like it, like itAna Tawa Soraeo sukiDon't let us fool you
Remember we told you we're
Just a bit twisted deranged
Always been like this
Surrounded by misfits
I guess we were born
On the frayLook how we killed all the princes
The castle is ours
And we're gonna reign
Look how we killed all the princes
The castle is ours
'n we're here to stay!Play all night we're not afraid
We are, we are, we are so alive, so alive
Burn so bright we're up in flames
We are, we are, we are so alive, so aliveAna Tawa Soraeo sukiFour in the morning, the sun's coming up
But you know they ain't shutting us down
Don't try and stop us
Got magic, got gold dust
You'll only be wasting your timeLook how we running this kingdom
This castle is ours
And we're gonna reign
Look how we running this kingdom
This castle is ours
'n we're here to stay!Play all night we're not afraid
We are, we are, we are so alive, so alive
Burn so bright we're up in flames
We are, we are, we are so alive, so aliveAna Tawa Soraeo sukiBetter we do it better, we do it better
And you know that's why you like it, like itBetter we do it better, we do it better
And you know that's why you like it, like it, like itBetter we do it better, we do it better
And you know that's why you like it, like itPlay all night we're not afraid
We are, we are, we are so alive, so alive
Burn so bright we're up in flames
We are, we are, we are so alive, so aliveAna Tawa Soraeo suki
