Lose It

Oh Wonder

Downtown we let it go
Sunset high and our bodies low
Blood rush in the hazy glow
My hands, your bones

Loose up we break the scene
One step deep as you fall to me
Heart clap, we skip a beat
Count one two three

And don't you stop the music
Get into it
Won't you dance with me?

Find a place and lose it
You can do it
Won't you dance with me?

Move your feet and feel it in the space between
You gotta give yourself a moment, let your body be
We gotta lose it
We gotta lose it

Lose it
Lose it
Lose it
We gotta lose it
Lose it
Lose it
Lose it
We gotta lose it

Your name I'll never know
As we get down in the world below
Caught up in an overflow
My hands, your bones

Wide eyed, you look at me
Set on fire in a silver dream
Spin round you can feel the breeze

Count one, two, three

And don't you stop the music
Get into it
Won't you dance with me?

Find a place and lose it
You can do it
Won't you dance with me?

Move your feet and feel it in the space between
You gotta give yourself a moment, let your body be
We gotta lose it
We gotta lose it

Lose it
Lose it
Lose it
We gotta lose it
Lose it
Lose it
Lose it
We gotta lose it

Make a spark, break the dark
Find a light with me
Who we are from the start
Won't you dance with me?

Make a spark, break the dark
Find a light with me
Who we are chasing stars
Won't you dance with me?
Won't you dance with me?

And don't you stop the music
Get into it
Won't you dance with me?

Find a place and lose it
You can do it
Won't you dance with me?

Move your feet and feel it in the space between
You gotta give yourself a moment, let your body be
We gotta lose it

We gotta lose it

Lose it
Lose it
Lose it
We gotta lose it
Lose it
Lose it
Lose it
We gotta lose it

Lose it
Lose it
Lose it
We gotta lose it
Lose it
Lose it
Lose it
We gotta lose it

Move your feet and feel it in the space between
You gotta give yourself a moment, let your body be
We gotta lose it
We gotta lose it
