

Still Alive

Negative

These are those days, when I can get no sleep

I'm so tired I'd like to fall into sleep

I fall in my bed

But still I'm awake

These questions in my mind are so much bigger than life

When my life is sold I have to leave them behind

I have to try to forget

That I am still in my bed

In my deepest fears I'm losing you

Even if somebody tried to stop my heart

I'm still alive I will never give up

CHORUS:

Just turn off the lights

Don't want to see me die

I look like I'm dead

But when you look at me

I am still alive

Just open your eyes

Don't want to see me cry

I'm right here where you want be to be

Fighting with myself

All I need to feel is your breath on my skin

This endless longing between you and me

We can't give up now

We're gonna make it somehow

In my sweetest dreams I'm with you

Even if somebody tried to stop my heart

I'm still alive I will never give up

[CHORUS]

Just open your eyes

Don't want to see me cry

I'm right here where you want me to be

fighting with myself, with myself

[CHOURS]

Won't you open your eyes

Don't want to see me cry

I'm right here where you want me to be

fighting with myself

I'm right here where you want me to be

fighting with myself
I'm right here where you want me to be
fighting with myself, with myself.
Ooh, I look like I'm dead
but when you look at me
I'm still alive
