

Love Back

Brenna Whitaker

I got damage in miss exchange, ___?___ left in the rain
you're not who you said you were
all the promises that you made they came to my skyparade
just a bunch of so ugly words
I cant believe that I believed in you ohh
turns out that all I really got was you is deadI gave away too much of me
I want my love back want my love back
I need a readed apolicy(?) I want my love back, want my love back
my touch and my tongue how'd you twisted my mind into thinking we ain't something beautiful?
I gave away too much of me
I want my love back, want my love back
You stole too many days, I wish I could make you pay
Send the revenue(?) to my heart
I wanna ___?___ of your fingertips left an imprint I'll never revoke
I cant believe that I believed in youI gave away too much of me
I want my love back, want my love back
I need a readed apolicy(?) I want my love back, want my love back
my touch and my tongue how'd you twisted my mind
into thinking we ain't something beautiful?
I gave away too much of me
I want my love back, want my love backNow there is just empty space where you used to be
'cause I gave you myself, gave you all of me
when you said yeah you swore you would _____ me
You would _____ me
I gave away too much of me
I want my love back, want my love back
I need a readed apolicy?? I want my love back, want my love back
my touch and my tongue how'd you twisted my mind into thinking we had something beautiful?
I gave away too much of me
I want my love back, want my love back
I want my love back
I want my love back
