

# It's Time Now

Tye Tribbett & G.a.

Excuse me can I talk to you please  
Give me a few minutes then you can leave  
Ima show you who I'm talking to  
It may be a lot or it may be a few  
You know there is a God around  
Grandma used to take you to the church downtown  
But you where young & grandma made you do it  
Some of ya'll paid attention some slept right thru it  
It's time now no betta time than now  
For you to turn back to God  
Please turn back to God  
Life gets so heavy at times  
Troubles add up to the mountain high  
There's no way that you can get around them  
So put your trust in God & not in man  
In your heart you know that God is real  
You know that he can save & he can heal  
So don't front on what you know is true  
Cause right now God is watching you  
It's time now no betta time than now  
For you to turn back to God  
Please turn back to God

Just one more verse & then I'm through  
Don't wanna get on your nerves but I really am concerned about you  
I want you to make it to heaven  
Instead of wasting time down here just having fun  
Just look at the signs of times  
Tell ya there's wars everywhere not to mention crime  
Jesus is coming back so soon  
I betcha heard that from your grandma too  
It's time now no betta time than now  
It's time now no betta time than now  
It's time now no betta time than now  
It's time now no betta time than now  
Won't you please give  
God a chance & your life he will enhance yeah  
No betta time than now  
Yes I know you've had some pain, turn to God don't go insane yeah

No betta time than now  
So how long will you live that lie whatever's wrong He'll set it right yeah  
No betta time than now  
Don't deny the way you feel God is real, yes he's real yeah  
No betta time than now  
It's time now no betta time than now  
For you to turn back to God  
Please turn back to God
