

Time Drags By

Cliff Richard

Sitting in the sun like an old tom cat That don't know just where he's at And I must admit to you Right now I feel that way to (Ain't got nowhere) Ain't got nowhere to go (Nobody wants) Nobody wants to know And time drags by real slow Sitting on a log, watch the world go by Fat old frog's thinking: My oh my Funny thing that human race Rush here, rush there, get no place (Ain't got nowhere) Ain't got nowhere to go (Nobody wants) Nobody wants to know And time drags by real slow We've come a long way, looks like the wrong way Now we're broke Even a day here's too long to stay here That's no joke What a day it's been and it's getting worse There must be a way to reverse Situations such as these If there is, then tell us please (Ain't got nowhere) Ain't got nowhere to go (Nobody wants) Nobody wants to know And time drags by real slow (Don't you just know that) Time drags by real slow (Slow, slow, slow)
