## Moneyshot

Yeah yeah, watch us turn it up for y'all  
Tight broads watchin'  
The Guru, the great 'Dat X, and Big L  
Flamboyant for life  
Check it, a year ago I did a show for some dough  
Puffed a bag of hydro then broke out on the low  
And on my way out, it was a female on my trail  
Who followed me from the stage to the Benz SL  
I asked honey her name, she replied, "Monique"  
Soft and sweet, from her head to feet, hotter than heat  
Jump in the passenger seat, let's go get somethin to eat  
She said, "I was that Roc-a-Fella she'd been dyin' to meet"  
I tried to hit it first night, she said she wasn't a freak  
Yeah right, it's all good, so I waited a week  
Then one night to my crib she decided to creep  
Knocked on a nigga door and woke me out of my sleep  
I let her in before you know it we was doin our thang  
I drove her home, and said, "Tomorrow give me a ring"  
It was about a month later when she gave me a call  
With some bogus ass story that was off the wall  
Claimin' she's pregnant with my child, I think that's quite foul  
How is that? I wore a Lifestyle  
Aiyyo fellas, you gotta be careful today  
Watch out for games that these females play  
'Cause some break the rules and some don't play fair  
You might get caught out there if you're not aware  
Aiyyo fellas, you gotta be careful today  
Watch out for games that these females play  
'Cause some break the rules and some don't play fair  
You might get caught out there if you're not aware  
I'm in the breed of the bad guy  
Get caught in a mad lie, come in your crib mad high  
Think about me with the smile on your face  
Think about me with my hand on your waist  
And think about me with your hair in your face  
Even caught a case fuckin with you  
Had said some ol' slick shit, that had forced me to hit you  
Had you set up livin' swell, how you gone' fuck my man L  
Like we don't cross paths in these New York streets?

But that's good, 'cause he's my man and we both shine  
And to say we don't love these hoes is a old line  
Honey just save some space in it so you can hold mine  
Her whole spine be twisted, things she did and how she kissed it  
I kinda missed it, think back on how we dissed it  
Now we two-fisted, she ain't never resisted

Left it red and blistered, shakin'  
I could slam it if it wasn't no money makin  
Aiyyo fellas, you gotta be careful today  
Watch out for games that these females play  
'Cause some break the rules and some don't play fair  
You might get caught out there if you're not aware  
Aiyyo fellas, you gotta be careful today  
Watch out for games that these females play  
'Cause some break the rules and some don't play fair  
You might get caught out there if you're not aware  
Word up games, these girls nowadays they play many  
Techniques for gettin' your loot, they got plenty  
Suck the skin off your dick, just for some ice and shit  
In the beginning they're polite, actin' all nice and shit  
But honey got plans to be pushin' your land  
When she got you, she goes and fucks your man  
Understand? You gotta lay down the law  
A lot of broads is fraud, they'll set you up Baby Pah  
Someone'll try to get you stuck up, someone'll fake pregnancy  
Most are after the dough, and the fame basically  
Yo you can't make a hoe a housewife kid  
Pick the wrong chick could be a lifetime bid  
A lot of cats be beefin' over these honies  
Not me I keep it movin' they ain't gettin' jack from me  
Mack these freaks for your own enjoyment  
And one love to L we gone' stay Flamboyant  
Aiyyo fellas, you gotta be careful today  
Watch out for games that these females play  
'Cause some break the rules and some don't play fair  
You might get caught out there if you're not aware  
Aiyyo fellas, you gotta be careful today  
Watch out for games that these females play  
'Cause some break the rules and some don't play fair  
You might get caught out there if you're not aware  
Hey, word up  
Yo son you better watch these little fast-ass  
Little fancy-pants bitches with the thongs  
Hey, that's my word

Yo, rest in peace to my man Big L  
Peace to the God Sadat X  
Guru, Gangstar  
Hold it down
