

Detuning

[ashleigh stone](#)

Be my solitude

Be my grace

Be the reason I stay in this place

And when rainclouds cover your head

I will hold your spirit in the palm of my hand

I will hold your spirit in the palm of my hand

Tell your mother I'll treat ya just fine

Tell your mother I'll treat ya just fine

Tell your mother I'll treat ya just fine

I will make your dinner

Put your clothes out on the line

I will make your dinner

Put your clothes out on the line

I know work's been treatin' you hard

I know work's been treatin' you hard

I knw work's been treatin' you hard

So put your head on my shoulders

'Cause I don't need fancy cars

Baby, put your head on my shoulders

'Cause I don't want fancy cars

Be my solitude

Be my grace

Be the reason I stay in this place

And when rainclouds cover your head

I will hold your spirit in the palm of my hand

I will hold your spirit in the palm of my hand
