

1/2 Full

Pearl Jam

Album: Riot Act Climbing on a mountain Far from lights of a city Floating out on the sea The elements they speak to me Whispering that life Existed long before breed Balancing the world On its knee Don't see some men as 1/2 empty See them 1/2 full of shit There's ain't gonna be Thinking that we're all but slaves It's been said before No middle anymore The haves be having more Yet still bored Won't someone save Won't someone save? The world?
