

Forever's Come and Gone

Carly Patterson

Holden back the tears for now
But tonight I'll fake a smile
Tomorrow's gotta change
Cause a change can take awhile
I can't fight this
So kiss this moment goodbye

[Chorus]

I can stay and play this game
I can try to place the blame
I can change the girl i am
But i gotta take a step
Cause when it's all been said and done
Some are lost and some are won
I'll take a chance of moving on
Cause forever's come and gone

Gotta keep this dream alive
Cause forever's not that long
Gotta make my way tonight
Cause forever's come and gone
I can't fight this
So kiss this moment goodbye

[chorus]

Don't know
But i won't
Sit around and wait forever
And it goes
To show
You never know when something's better
And i don't know if this is right
But wish we could've stayed together
And i'm gone goodbye
Cause i don't want to waste this life

[chorus 2x]
