

Would You Be There

Blessid Union of Souls

If I needed you so desperately come to me and talk to me
To take my heart and hand into your comfort zone
Where I'm not alone or lonely
Well would you take the time to be my friend
'Cause in the end that's all there is there's love
And the eternal bond between us would you be there? When the lights are down low and I'm feeling insecure
With this bed so big and cold only memories to hold
It's your voice I need to hear to help me overcome this fear
I need your hand to help my heart
From sinking into this quicksand of love If I told you that I couldn't bear to be alone
Would you be there?
And if I said I need your heart to be my home
Would you let me stay there? If I needed you so desperately come to me and talk to me
To take my heart and hand into your comfort zone
Where I'm not alone or lonely
Well would you take the time to be my friend
'Cause in the end that's all there is there's love
And the eternal bond between us would you be there? Would you be there for me? Can't you see
I need you and you need me tonight
Close your eyes realize
I've got so much love to give to you If I told you that I couldn't bear to be alone
Would you be there?
And if I said I need your heart to be my home
Would you let me stay there? If I told you that I couldn't bear to be alone
Would you be there?
And if I said I need your heart to be my home
Would you let me stay there? If I told you that I couldn't bear to be alone
Would you be there?
And if I said I need your heart to be my home
Would you let me stay there? If I told you that I couldn't bear to be alone
Would you be there?
And if I said I need your heart to be my home
Would you let me stay there? If I told you that I couldn't bear to be alone
Would you be there?
And if I said I need your heart to be my home
Would you let me stay there?
