

Saturation

Zoot Woman

what am I doing what will I see?
an opportunity that isn't for me
I can't take my eyes off you
take my eyes off you
give your eyes my view for a second I'm caught up in you appearing so free
everything else I can take or leave
I've tried to define... I'm making no sense
can't stand by and wait for the consequence I can be anything that you want
I can dream of the dreams that you want
saturate every part of your life
would you want it any other...
other way what am I doing what will I say?
an opportunity that isn't for me
I can't take my eyes off you
take my eyes off you
give your eyes my view for a second I can be anything that you want
I can dream of the dreams that you want
saturate every part of your life
would you want it any other...
other way I can't take my eyes off you
take my eyes off you
give your eyes my view for a second
