

# Worried Blues

Bob Dylan

I got those worried blues  
And I got those worried blues  
I got those worried blues  
I got those worried blues  
Lord, I'm a-going where I never been before I'm going where the chilly winds don't blow  
I'm going where the chilly winds don't blow  
I'm going where the chilly winds don't blow  
I'm going where the chilly winds don't blow  
I'm going where the climate suits my clothes Honey babe, don't leave me now  
Honey babe, don't leave me now  
Oh, honey babe, don't leave me now  
Honey babe, don't leave me now  
I got trouble in my mind Listen to that cold whistle blow  
Lord, listen to that cold whistle blow  
Listen to that cold whistle blow  
Listen to that cold whistle blow  
I'm going where I'm never been before
