

More Like You

Hazel English

I could waste all of my time
Thinking of ways to catch your eye
And I tried but it just didn't feel right
And besides I was trying to get by
Do you want me to aspire
To be all that you admire?
Let it go
I'll just let it go
Do you want me to aspire
To be all that you admire?
Let it go
I'll just let it go
I could be more like you
I could be more like you
I could be more like you
Let it go
It's so funny how you live your life
Always trying on a new disguise
And you lie to yourself all of the time
You rely on the safety of denial
Do you want me to aspire
To be all that you admire?
Let it go
I'll just let it go
Do you want me to aspire
To be all that you admire?
Let it go
I'll just let it go
I could be more like you
I could be more like you
I could be more like you
Do you want me to aspire
To be all that you admire?
Let it go
I'll just let it go
Do you want me to aspire
To be all that you admire?
Let it go
I'll just let it go
I could be more like you
I could be more like you
I could be more like you
