Naked City

Oddjobs

All the victims have turned to stone
No one is happy, they're all alone
I'd sacrifice my social position tonightIn New York, millionaires
And lonely people with lonely stares
I'm not lookin' for love and I'm lost in this nightIn the naked city, there are ten million stories
(In the city)
(Naked city)
I'm not lookin' for pity in this naked city
(In the city)
(Naked city)Street Vampires in the night
Young lovers and love at first sight
This is my flesh and my fantasyOlder women with younger men
I've got a feelin' I'm in trouble again
But I've got to live my destinyIn the naked city, it's a race with the Devil
(In the city)
(Naked city)
All the pain and the sorrow is there more tomorrow
(In the city)
(Naked city)
In the naked, naked city
(In the city)
(Naked city)Lonely people lookin' for someone, lonely people goin' their way
Lonely people lookin' for something, lonely people goin' their wayIn New York, millionaires
Lonely people with lonely stares
I'm not lookin' for love and I'm lost in this nightIn the naked city, there are ten million stories
I'm not lookin' for pity, in this naked cityIn the naked, naked city, it's a race with the devil
(In the city)
(Naked city)
All the pain and the sorrow, is there more tomorrow
(In the city)
(Naked city)(In the city, naked city)
(In the city, naked city)
(In the city, naked city)
(In the city, naked city)
