

# He Believes In Miracles

C Duncan

I believe in miracles (now that I know)  
I believe in miracles (I'm not alone)  
I believe in something more (day after day)  
I conceive it's something more (coming our way)  
Oh what can I say. Somewhere a song sounds a lullaby when I'm near you  
Somewhere the bell's chiming over the land to sea (oh and)  
Somewhere the drum's beating buh buh buh when I hear you  
Somewhere the sun shines in my reverie for thee  
In my reverie for thee. (he believes in miracles) Oh what will I do  
(he believes in miracles) Oh now I've found you  
Do you believe too? Someone came and stole my heart  
Someone came and stole my heart (I don't want it back, I don't want it back)  
Someone gave me so much more (what can I say)  
Someone I've been waiting for (day after day)  
To take me away. I hear the song sounding lullabies when I see you  
I hear the bells chiming over the land to see (oh and)  
I feel my heart beating buh buh buh when I'm near you  
I see the moon shine in my reverie for thee  
I want nothing more but thee. (he believes in miracles) Oh what will I do  
(he believes in miracles) Oh now I've found you  
And you believe too. (he believes in miracles) Oh what will I do  
(he believes in miracles) Oh now I've found you  
(oh miracle you).
