

Someone That I Can Forget

Moe Bandy

I come here tonight to discover a lover that I'd never known
Someone to talk to and smile at and laugh with till I take her homeI come here to find me a stranger somebody
that I never met

Someone to love me then leave me alone but someone that I can forget
[steel]

You might say it's not unexcepted neglected after being your man
You'd left too many mem'ries to live with and I'm forgetting the best way I canI come here to find me a
stranger...
Yes I need someone that I can forget
