

Singles Out

Candice

Walked up in the club and what did I see, oho
A whole bunch of flavors staring at me
I got options from the floor up to the ceiling, yeah
But I'm a choosy girl so I know what I need, yeah From wall to wall, I love them all
I think I might leave with one tonight
And I'm not that tied, but it feels right
I think I might leave with you tonight I told my girl it's raining men, oh yeah, oh yeah
It's raining men, oh yeah, oh yeah
I got my singles out, yeah
I got my singles out, yeah
I got my singles out, yeah 'Cause it's raining men and they all wanna buy me a drink
I'm turned up with my girls
Do we look like we worry? No, no
'Cause we do this every week
But tonight it feels different, I feel your energy From wall to wall, I love them all
I think I might leave with one tonight
And I'm not that tied, but it feels right
I think I might leave with you tonight I told my girl it's raining men, oh yeah, oh yeah
It's raining men, oh yeah, oh yeah
I got my singles out, yeah
I got my singles out, yeah
I got my singles out, yeah I'm gonna dance and work up a sweat now,
I'm gonna get so absolutely wet
I'm gonna dance and work up a sweat now,
I'm gonna get so absolutely wet It's raining men, oh yeah, oh yeah
It's raining men, oh yeah, oh yeah
I got my singles out, yeah
I got my singles out, yeah
I got my singles out, yeah
