

Where You're Going

Sister Hazel

Broke the ring around it
I can't think about it
I can barely start to even wrap my head around it Waters rise around us
Sinking ships around us
I can't believe she even found a way inside to drown us I'm not so sure anymore what's next
Or if there's anything left for us
What will we find inside of the wreck
Yeah we both know it's all just washed away Where do you go and what do you do
All you have left is hanging on you
Where do you go and what do you do
When you lose everything you ever knew
Shine a light into it
Shoot a canon through it
Spill it all and hope you find a way to make it through it
'Cause down is up and up is down
And love lies dying all on the ground
You find a line that's in the sand and figure out who drew it I'm not so sure anymore what's next
Or if there's anything left for us
What will we find inside of the wreck
Yeah we both know it's all just washed away Where do you go and what do you do
All you have left is hanging on you
Where do you go and what do you do
When you lose everything Broke the ring around it
I can't think about it
I can barely start to even wrap my head around it
'Cause down is up and up is down
And love lies dying all on the ground
You find a line that's in the sand and figure out who drew it Where do you go and what do you do
All you have left is hanging on you
Where do you go and what do you do
When you lose everything Where do you go and what do you do
When all that you have has been taken from you
Where do you go and what do you do
When you lose everything
