

# You're Not Alone

## The Wooden Sky

Lonely nights I can't stay  
I've been sleeping on my bed most days  
And when I see that hurt look on your face  
I'll make it up to you one day I heard you calling out my name  
I'd love to see you but a lot has changed  
Life is long and love is strange  
We're then in love but love could change You're not alone  
You're not alone  
You're not alone  
Seems outside that nothing's changed  
Tow the line and I'll seal my fate  
Now I'm tap, tap, tapping on a weathered face  
And everybody wants to know your name You're not alone  
You're not alone  
You're not alone  
You're not alone  
We get lost and make mistakes  
And throw it all away  
Is there nothing that I could say  
To take the pain away  
And make it right again?
