

I've Got a Good Thing

Dusty Springfield

(I got a good thing)
I got a good thing
(I got a good thing)
I got a good thing
(I got a good thing)
I got a good thing going Take the sun and take the moon
And stars that shine so bright
All I need is my guy
And everything's all right Everything about him thrills me
The way he looks at me just kills me
He's got a way of getting to me
Every kiss just goes right through me (I got a good thing)
I got a good thing
(I got a good thing)
You know I got a good thing, baby
(I got a good thing)
I got a good thing going Take the rainbow from the sky
Oh, I don't really care
I will have a pot of gold
As long as he is there I never knew such sweet affection
And it's all in my direction
If he left there's no mistaking
My poor heart would start to break and (I got a good thing)
I got a good thing
(I got a good thing)
You know I got a good thing going, yeah
You know I got a good thing, yeah (I got a good thing)
I got a good thing, yeah
(I got a good thing)
You know I got a good thing going
(I got a good thing) You know I got a sweet thing baby
(I got a good thing)
Everything is everything, baby
(I got a good thing) Everything is uptight, all right, out of sight
(I got a good thing)
Know I got a ooh, oh, sweet, sweet thing
(I got a good thing)
Sweet mmm
(I got a good thing)
