## KITARO

Once a long long time ago  
setting out find our dreams  
lost in memories  
of golden days  
sometime rising in the spring  
glowing shining game the sun  
golden days means  
come to till return  
those who know the fire burn  
try to find forever the dream  
try to find forever the way  
My way

Caravan journey in the sky  
As the sun comes out  
From the day  
Caravan we know  
Who we are  
We discover  
Where we went  
Oh ohh caravan  
There we find the love  
Love shimmering  
And soon our love  
Is trough

Come with me  
And take my hand  
Memories of  
Past unfold  
And with I lived  
Them once again  
From my fading  
Heart my hand  
Feel my walk  
In love with him  
And I wander when  
The spring will come  
Do we ever really

Know for sure  
Will we travel  
On and on  
Someday we'll be  
Standing up  
From today

Caravan journey in the sky  
As the sun comes out  
From the day  
Caravan we know  
Who we are  
We discover BIS  
Where we went  
Yeah caravan  
There we find the love  
Love shimmering  
And soon our love  
Is trough
