For All We Know

Designer Drugs

It's all so modern
Get ? with strange the sound
It doesn't even see my mind
Knew ones and someone staring
Into the face of time
It doesn't even seem my life

For all we know you can try
For all we know you can fight
For all we know you can try
For all we know you can fight
For all we know

It's all so modern
Get ? with strange the sound
It doesn't even see my mind
Knew ones and someone staring
Into the face of time
It doesn't even seem my life

For all we know you can try
For all we know you can fight
For all we know you can try
For all we know you can fight
For all we know
