What Happened To Us?

Lunarave

I thought it was too good to be true
I found somebody who understands me
Someone who would help me to get through
And fill an emptiness I had inside me
But you kept inside and I just denied
Some things that we should have both said
I knew it was too good to be true
'Cause I'm the only one who understands me
What happened to us? We used to be so perfect
Now we're lost and lonely
What happened to us? And deep inside I wonder
Did I lose my only?
Remember they thought we were too young
To really know what it takes to make it
But we had survived off of what we had done
So we could have shown them all that they're mistaken
But who could have known, the lies that would grow
Until we could see right through them
Remember they knew we were too young
We still don't know what it takes to make it
What happened to us? We used to be so perfect
Now we're lost and lonely
What happened to us? And deep inside I wonder
Did I lose my only one?
We could have made it work, we could have found a way
We should have done our best to see another day
But we kept it all inside, until it was too late
And now we're both alone, the consequence we pay
For throwing it all away, for throwing it all away
What happened to us? We used to be so perfect
Now we're lost and lonely
What happened to us? And deep inside I wonder
Did I lose my only?
What happened to us?
What happened to us?
What happened to us?
What happened to us?
