In His Eyes

Natalie Bassingthwaighte

I cant imagine losing the one
After spending a lifetime together
I'm sure its not easy facing the day
I wish I could make you feel better
It doesn't seem fair and it doesn't seem right
You're not alone, I'll be right by your sideI'm glad I could stay a while
I'm glad I could make you smile
But it's a long drive home and I really have to go
Everything will be alright
He'll be with you in your dreams tonight
And you can see his eyes when you look into mine
In his eyesDon't be afraid to show how you feel
If it helps you to talk about him
Tell me your story, when you were young
I want to know more about him
Lets take this time to recognize
He wants you to be happy and so do II'm glad I could stay a while
I'm glad I could make you smile
But it's a long drive home and I really have to go
Everything will be alright
He'll be with you in your dreams tonight
And you can see his eyes when you look into mine
In his eyesI'm here
I'm here
I'm hereIn his eyesI'm glad I could stay a while
I'm glad I could make you smile
But it's a long drive home and I really have to go
Everything will be alright
He'll be with you in your dreams tonight
And you can see his eyes when you look into mineHis eyes
