

Falling in Love

Juice Newton

I thought by now I was too smart
Thought I was through givin' my heart
It's only a game, tears you apartFalling in loveMy poor soul was about to mend
Honey, then you smiled at me and then
Lord help me, here I go againFalling in loveFalling in love, falling in love
When will I learn?
I bet I get burned
Falling in loveLooking back through the bridges I've burned
Each heartache was a page I turned
Never forget the lessons I've learnedFalling in loveAnd I was all through
'Til we met
Never gonna love again and yet
Funny how soon we all forgetFalling in loveAnd I'm falling in love, falling in love
When will I learn?
I bet I get burned
Falling in loveNothing is worse than a fool like me
Think that I would finally see
Heaven knows I shouldn't be
Falling in loveBut it's not easy to understand
A thing between a woman and a man
I saw you and here I am
Falling in loveAnd I'm falling in love, falling in love
When will I learn?
I bet I get burned
Falling in loveAnd I'm falling in love. falling in love
When will I learn?
I bet I get burned
Falling in love
