

No Time To Waste

Anouk

I've got time to think about
the things you think about when
you've got time to spare
wonder why we're here And I wonder when or where it might go wrong
I wonder why I went along with you
why I forgot to think
forgot to think it through I wonder why I
I wonder why
(chorus)
you go on, you go on, you go on pushing yourself
you keep, you keep on, you keep on fooling yourself
you don't know why, you don't know
you don't know how, you just don't know
you keep on, I keep on fooling myself there's a time and place for everything
a time to act, a time to dream
there's time to wait
but no time to waste I wonder why I
I wonder why
(chorus)
you go on, you go on, you go on pushing yourself
you keep, you keep on, you keep on fooling yourself
you don't know why, you don't know
you don't know how, you just don't know
you keep on, I keep on fooling myself. myself. myself. myself. myself
