Fool Me Once

Jess Godwin

I gotta hand it to you
You make it almost too easy for me
Only a pro gets me to swearin' off men with his name

I should be happy, everything's falling in place
Now I can actually sleep through the night
What about nights when I don't want to sleep?

Fool me once, I don't forget, I
Take down every word
Hard the first time, hard the last time
Hurts more than it hurts
I've been there too many times to
Hope for things to change
But it gets lonely

I never said I was proud
You start to feel cheap
knowing that you're the one making the calls
But I'm afraid, afraid of the days when I don't feel at all

Fool me once, I don't forget, I
Take down every word
Hard the first time, hard the last time
Hurts more than it hurts
I've been there too many times to
Hope for things to change
But it gets lonely

It gets lonely
It gets lonely

La da da da da la
Ta ta ta ta ta
Ohh oh oh oh

Fool me once, I don't forget, I
Take down every word
Hard the first time, hard the last time
Hurts more than it hurts

I've been there too many times to
Hope for things to change
But it gets lonely
It gets lonely
It gets lonely
