

Work It Out

[Keyshia Cole](#)

Damn, I'm sorry you had to find out like that
Wait a minute Can we talk a minute, oh?
I'm sorry you had to find out this way
There's this guy I've been seein'
Hold on though Every time I close my eyes, he's in my thoughts
Even goin' through it for some time now
It ain't my fault, no, I'm just tryna be truthful to you
And let you know Every time I try to leave something always tells me no
And just when I think it's workin' itself out, can't be so
Everything we worked so hard for, should we let it go?
It's no fair to leave without tryna work it out And there's someone else you've been seein'
I ain't a fool, no, and it's been goin' on for some time now
It's so obvious, that she's been takin' my place
From the time that you've been gone, yeah
Oh, I want you just be truthful to me, yeah and let me know Every time I try to leave something always tells me
no
And just when I think it's workin' itself out, can't be so
Everything we worked so hard for, should we let it go?
It's no fair to leave without tryna work it out And I know, oh, I know sometimes it can get rough
It means so much when it comes to us
I can't just walk away from the only thing I know
The only thing I know Tell me if you think it's worth workin' out
I'll be right here if you have no doubt
No doubt that we can make it
'Cause baby Every time I try to leave something always tells me no
And just when I think it's workin' itself out, can't be so
Everything we worked so hard for should we let it go?
It's no fair to leave without tryna work it out
