Shade to Shade (Alternate Version) [Bonus Track]

Born Ruffians

I forgot to say that I loved you,
I really felt it tonight,
I really lost myself.
The crowd was meaningless
the crowd was pityful
the crowd was nothing like me
Two-faces & I fade,
from shade to shade to shadeThat just wasn't me,
admired by everyone.
I was somewhere else,
somewhere far away,
far away from here
underneath a tree
an open fiel stretched
for miles & miles & miles
from shade to shade to shade
to shade to shade to shadecuz everybody wants a freak
you know they're spiteful
hateful meanies
But I think I really love it
sometines.
But you know,
I'm inconsistent every time
I'm two faced,
I face your face & fade
from shade to shade to shade
to shade to shade to shade
