

No Tears

Fancy

In a far away land bright lights are going downreacin' out for a hand
cold hearts walking around.

With a gun at my side

I'm like a sacrificenow I feel like I'm jailed

stop the crying

have I failed ?No tears

no children filled with fearlife bringing war so nearno tears

no children fear- like a story - like hand in hand- pain and glory - please understand.Running wild in war

dark nights go on and onchildren wait by the door

this fighting feels so wrongare we slipping away

remembering yesterday ?

Gotta live in our world

take away fear

have no tears.No tears

no children filled with fearlife bringing war so nearno tears

no children fear- like a story - like hand in hand- pain and glory - please understand.Running wild running wild

in war

dark nights go on and onchildren wait by the door

this fighting feels so wrongare we slipping away

remembering yesterday ?

Gotta live in our world

take away fear

have no tears.No tears

no children filled with fearlife bringing war so nearno tears

no children fear- like a story - like hand in hand- pain and glory - please understand.
