

# You Went Away

Tegan And Sara

You went away  
'Cause you said that you can't stand me  
So I went away  
I was sure that you can't stand me Well, I don't think we have to be like this forever  
Is there more to life than love and being together You went away  
'Cause you said you couldn't love me  
I went away  
'Cause all I do is love you Well, I don't think we have to be like this forever  
There's more to life than love and being together My loud guitar comes in  
My thumpin' drums come through  
When my loud guitar comes in  
My thumpin' drums come through  
My loud guitar comes in  
My thumpin' drums come through Well, I don't think we have to be like this forever  
There's more to life than love and being together There's more to life than love and being together  
Is there more to life than love and being together  
I went away
