Wild

Local Sound

Above all distraction
Above every doubt
You have my attention
Here right now

Love from the outset
Yours from the start
You broke through the darkness
To have my heart

I'm lost to the world

In You forever

Found
In a love that never fades
In a hope that never sways
You'll never let go
This love is wild, wild

You
Got me reaching for the sky
Now I'm standing hope of why
You'll never let go
This love is wild, wild

This love is wild, wild

We're breaking the silence
With heavenly sound
Louder than thunder
Shaking the ground

If fear comes to find me
I will be found
Here in Your presence
Your freedom is now

I'm lost to the world

In You forever

Found
In a love that never fades
In a hope that never sways
You'll never let go
This love is wild, wild

You
Got me reaching for the sky
Now I'm standing hope of why
You'll never let go
This love is wild, wild

This love is wild, wild

Wild, wild

This love is wild, wild

Found
In a love that never fades
In a hope that never sways
You'll never let go
This love is wild, wild

You
Got me reaching for the sky
Now I'm standing hope of why
You'll never let go
This love is wild, wild

This love is wild, wild
