

# Moonlight In Samosa

Robert Plant

Time and again I see you walking down the street  
Over and over just like before  
Once in a while you stop and say hello to me  
Just like you used to before Time and again, it's like we were in love and then  
Over and over nobody keeping score  
Once in a while I think you noticed when I smile  
That love still lingers in my eyes It can't go wrong, it can't go wrong  
It lingers on, it lingers on Day after day I turn it over in my mind  
Dream after dream it's hard to tell you how I find  
Out of the blue I'm suddenly so close to you  
Despite the years that I've been gone Will you stop, will you wait a minute please remember  
Can you stop, can you just give me one minute to explain  
I will not 'cause a fuss, I will not rock the boat  
Believe me darling, oh, what is, what was, it's all the same
